Brand Guidelines

Last updated: 01 September 2022

How to use the CSconnected Brand Guideline

Anyone who represents the CSconnected community is encouraged to use these guidelines to achieve a high level of visual consistency and to ensure the integrity on all branded materials.

The CSconnected brand elements must not be reproduced without permission.

Anyone using the CSconnected logo or name, in any context, should follow these guidelines. This includes use on publications, websites, electronic communications and merchandise.

CScnnected summary

Please use the following text when describing CScnnected:

About CScnnected

CScnnected is the collective brand for a growing number of advanced semiconductor related activities in Wales, home to a unique community of academic institutions, prototyping facilities and global, high-volume manufacturing capabilities that collaborate across a range of research and innovation programs. CScnnected is uniquely positioned to develop a global advantage in a sovereign, key enabling technology which will allow Wales and the UK to increase trade globally in critical sectors such as 5G communications, autonomous and electric vehicles, advanced medical devices, and consumer electronics of the future.

In 2020, CScnnected received government funding provided through UK Research and Innovation's flagship Strength in Places Fund (SIPF). The 55-month CScnnected SIPF project has a total value of £43million, supported by £25million of UKRI funds. It builds on Wales's regional strengths and integrates research excellence with a unique regional supply chain in compound semiconductor manufacturing.

About CScnnected

South Wales has a strong industrial base of global semiconductor businesses including IQE, SPTS and Microchip, dating back to the 1980's and supported by world-class academic expertise at Cardiff and Swansea Universities. What started as ad-hoc interactions between the industrial and academic entities has become a focused effort driven by critical investments and projects in the region.

CScnnected is the collective brand for a growing number of advanced semiconductor related activities in Wales, home to a unique community of academic institutions, prototyping facilities and global, high-volume manufacturing capabilities that collaborate across a range of research and innovation programs. CScnnected is uniquely positioned to develop a global advantage in a sovereign, key enabling technology which will allow Wales and the UK to increase trade globally in critical sectors such as 5G communications, autonomous and electric vehicles, advanced medical devices, and consumer electronics of the future.

Our official name: CScnnected – please note the “c” of “connected” is in lowercase.

In the first mention, use the entire name CScnnected. Afterward, you may refer to the CS community or the CS cluster.

Please do not use “CSC” or “CSC Cluster” when referring to CScnnected.

CSconnected SIPF

- CSconnected Strength In Places Fund (SIPF) is a 55-month project with a total value of £43 million, supported by £25 million of government funding provided through [UK Research and Innovation's flagship Strength in Places Fund](#). Led by UK Research and Innovation, Strength in Places Fund (SIPF) is a competitive funding scheme that takes a place-based approach to research and innovation funding, to support significant local economic growth.
- The project partners are: Cardiff University (lead partner); Cardiff Capital Region City Deal; Compound Semiconductor Applications Catapult; Compound Semiconductor Centre (CSC); IQE Plc; Microchip Technology Caldicot Ltd; MicroLink Devices UK Ltd, Nexperia; Rockley Photonics; Swansea University; KLA; and Welsh Government.
- **Name:** CSconnected Strength In Places Fund, CSconnected SIPF
- **Visual Identity:** We encourage the use of the primary CSconnected logo, available [here](#). When referring to CSconnected SIPF in the public domain, to not dilute the brand and to not confuse the audience. A CSconnected SIPF logo is available for internal and projects specific content and communications. Contact media@csconnected.com for more information.

CScnnected vision and tagline

CScnnected 'vision' statement

To be the world's first compound semiconductor cluster by building on Wales' regional strengths in the manufacture of new and emerging hardware material and device to market.

CScnnected tagline

"Driving tomorrow's technologies"

Sub-brands: Colnnovate and ColnnovateCS

CSconnected organises a range of events that have their own distinctive sub-branding, but are all part of the CSconnected brand.

Colnnovate is a flagship event designed to bring world's leading innovators together in the spirit of collaboration.

ColnnovateCS is an interactive event that fosters collaboration and innovation across the compound semiconductor supply chain.

Website: ColnnovateCS.com

Use the correct Colnnovate and ColnnovateCS sub-brands to ensure consistency in all collateral materials.

CSconnected Logo

The CSconnected logo is a vital component of the CSconnected identity. As such, it needs to be used appropriately and consistently across all printed and on-screen applications. The following guidelines should be followed whenever creating original printed or on-screen pieces for CSconnected.

The CSconnected logo should be used on communications that are officially from or about CSconnected and must be used on all the marketing opportunity documents. The CSconnected logo is available on the [CSconnected website](#) for download and is approved for editorial use in public media.

If the available space does not permit the use of this format, an alternative version can be used:

The logo is intended to be used on lighter backgrounds and images in order to maintain legibility.

Use the logo on a flat colour area of an image

Another acceptable colour option is to reverse the logo out to White on darker backgrounds and images.

Please contact us at media@csconnected.com to get a copy of the CSconnected white logo.

Use the logo on a flat colour area of an image

Size

The size of the CSconnected logo should be appropriate for the material it is being used on. The minimum recommended size for the CSconnected logo is 40mm wide. Given the lack of space in emails, on presentations and on giveaways, the minimum size does not apply. The logo should retain the same aspect ratio at all times.

Colour

Do not modify the logos in any way, such as changing the design or colour. If you are unable to use the correct colour due to technical limitations, you may revert to black and white.

Maintaining Shape and Proportions

To ensure accurate and consistent use, never alter, rotate or recreate the “CSconnected” Logo. The proportions and shape of the should never be altered. To resize, hold the “Shift” key in most software programs to maintain the proportions while scaling up or down.

Clear space

The CSconnected logo must stand out clearly from its surroundings, this applies to interference from nearby text and other logos. To ensure this, an exclusion zone or “clear space” rule has been established and indicates the closest any other graphic message can be positioned. The “CS” triangle is taken as a guide to define the exclusion zone.

CScnnected colour palette

Core colour:

The core colour is purple and grey and should be the predominant colour used for all publications. White is an important element in the visual balance of our brand, so this should be used along with core colour.

Full-colour logo Purple:

RGB : 87/65/115
HTML: #574173
CMYK: 67/76/7/19
Pantone®: 7447C

Full-colour logo Blue:

RGB : 61/146/164
HTML: #3D92A4
CMYK: 71/16/24/18

Media Contacts

The Communications department provides journalists and editors with assistance in referencing background information, setting up interviews, securing press materials, and checking facts.

Communications Department: media@csconnected.com

CScnnected imagery

Our use of imagery is distinct to our brand and reflects our key messages. The images should reinforce the CScnnected brand to convey the right messages and have consistency in our communications. As a global and leading technology organisation, it is important to use modern images and graphics that support our message and vision.

The content of our photography can be defined in three areas, each showing an aspect of who we are:

- Technology: Use imagery that portray a modern or futuristic, technology concept.
- End-user applications: CScnnected plays an increasingly important role in transforming and shaping the world in which we live. Our materials are at the very heart of many of today's advanced electronic products. Use images or illustrations that show modern end-user applications.
- CScnnected and partners pictures: Use images that show CScnnected and partners employees, site and products. **It is prohibited to show confidential information such as documents, PC screens on pictures.**
